

David Barkanyi

Web Development Student

barizdev.com

EXPERIENCE

Story Valley Academy

ERASMUS+

Nov 2022 - Present

Successfully applied to volunteer as part of a team of developers to make an Erasmus+ project website, after having the opportunity to meet the project initiators in the Netherlands. Currently, attending regular meetings, devising a workflow for the project and coded several pages to establish an initial structure.

LimeLight Cinema

Edinburgh College Assessment

Sep 2022 - Dec 2022

Designed and developed a website for a cinema, using Tailwind CSS, Object-Oriented PHP with SQL during the project and created RESTful API. The website also features a seat-picker, a checkout function using Stripe API, mail receipt with QR code, and an Admin panel.

Till Web Application

Independent Project

Dec 2022

Independently, designed and developed an online till system web application using the MERN stack.

Padlozlak.hu

Freelance Project

Aug 2022

In Figma, I constructed a single-page website for a client, which I then built with the Tailwind CSS framework, various JavaScript functions, and a PHP contact form.
